- 5.2 We shall comply with the below principles when managing your complaint:
- 5.2.1 Impartiality – We will avoid any bias in dealing with your complainant, the person you complain about or 3P Solar.

 - 5.2.4 Accessibility – You may make your complaint at any reasonable point or time;

6. Three level model of complaint handling

6.1 Our complaint management system incorporates three levels of complaint management:

6.1.1 Level 1: Frontline complaint handling – early resolution

6.1.2 Level 2: Internal assessment, internal investigation, facilitated resolution or review

6.1.3 Level 3: External assessment, investigation, ADR or review.

6.2 We aim to resolve the majority of complaints at the first level - 'the frontline'. At each level, either the complainant or we can decide to escalate the issue to a higher level. However, there may be some serious cases where either party can escalate the case to the highest level.

6.3 Level 1: Frontline complaint handling – early resolution

6.3.1 We aim to address the majority of complaints by frontline or early resolution.

6.4 Level 2: Internal assessment, internal investigation, facilitated resolution or review

6.4.1 The seriousness of some complaints will be escalated to the second level of complainant handling. Or if a complainant is dissatisfied with how their complaint was handled at Level 1, they can request that the complaint proceed to the second level.

6.4.1.1 Internal assessment - The information provided by you will be assessed to determine whether, and if so how, the complaint can be dealt with by 3P Solar. Such an assessment might consider such issues as:

6.4.1.1.1 the nature and seriousness of the matters alleged;

6.4.1.1.2 the complainant's desired outcome;

6.4.1.1.3 whether there is any utility in taking the matter further;

6.4.1.1.4 the adequacy of the information provided;

6.4.1.1.5 the options available to address the complainant's concerns;

6.4.1.1.6 the appropriate level at which the matters alleged or complained about can be addressed by 3P Solar;

6.4.1.2 Internally facilitated resolution - Where 3P Solar's line manager talks with you to see if some form of mutually acceptable resolution can be achieved. Where appropriate, this process may include facilitating a discussion between the frontline staff member, line manager and the complainant.

6.4.1.3 Internal investigation - Investigating allegations that raise significant issues for either 3P Solar or you. Depending on the circumstances, such investigations may be undertaken by an appropriate manager or an external advisor.

6.4.1.4 Internal review - A more senior member of staff or a line manager may review the decision of the frontline staff member or the outcome of any internal assessment or investigation of the complaint. Appropriate senior staff are given broad discretion to overturn previous decisions and apply remedies.

6.5 Level 3: External assessment, investigation, ADR or review

6.5.1 If we are unable to resolve your complaint in Level 1 and/or Level 2, or if you are dissatisfied with the outcome that we have made in Level 1 and/or 2, then you may refer the matter as follows:
